

ARTISANAL ALABASTER LIGHTING

TIMELESS ALABASTER DESIGNS, ILLUMINATING YOUR SPACE

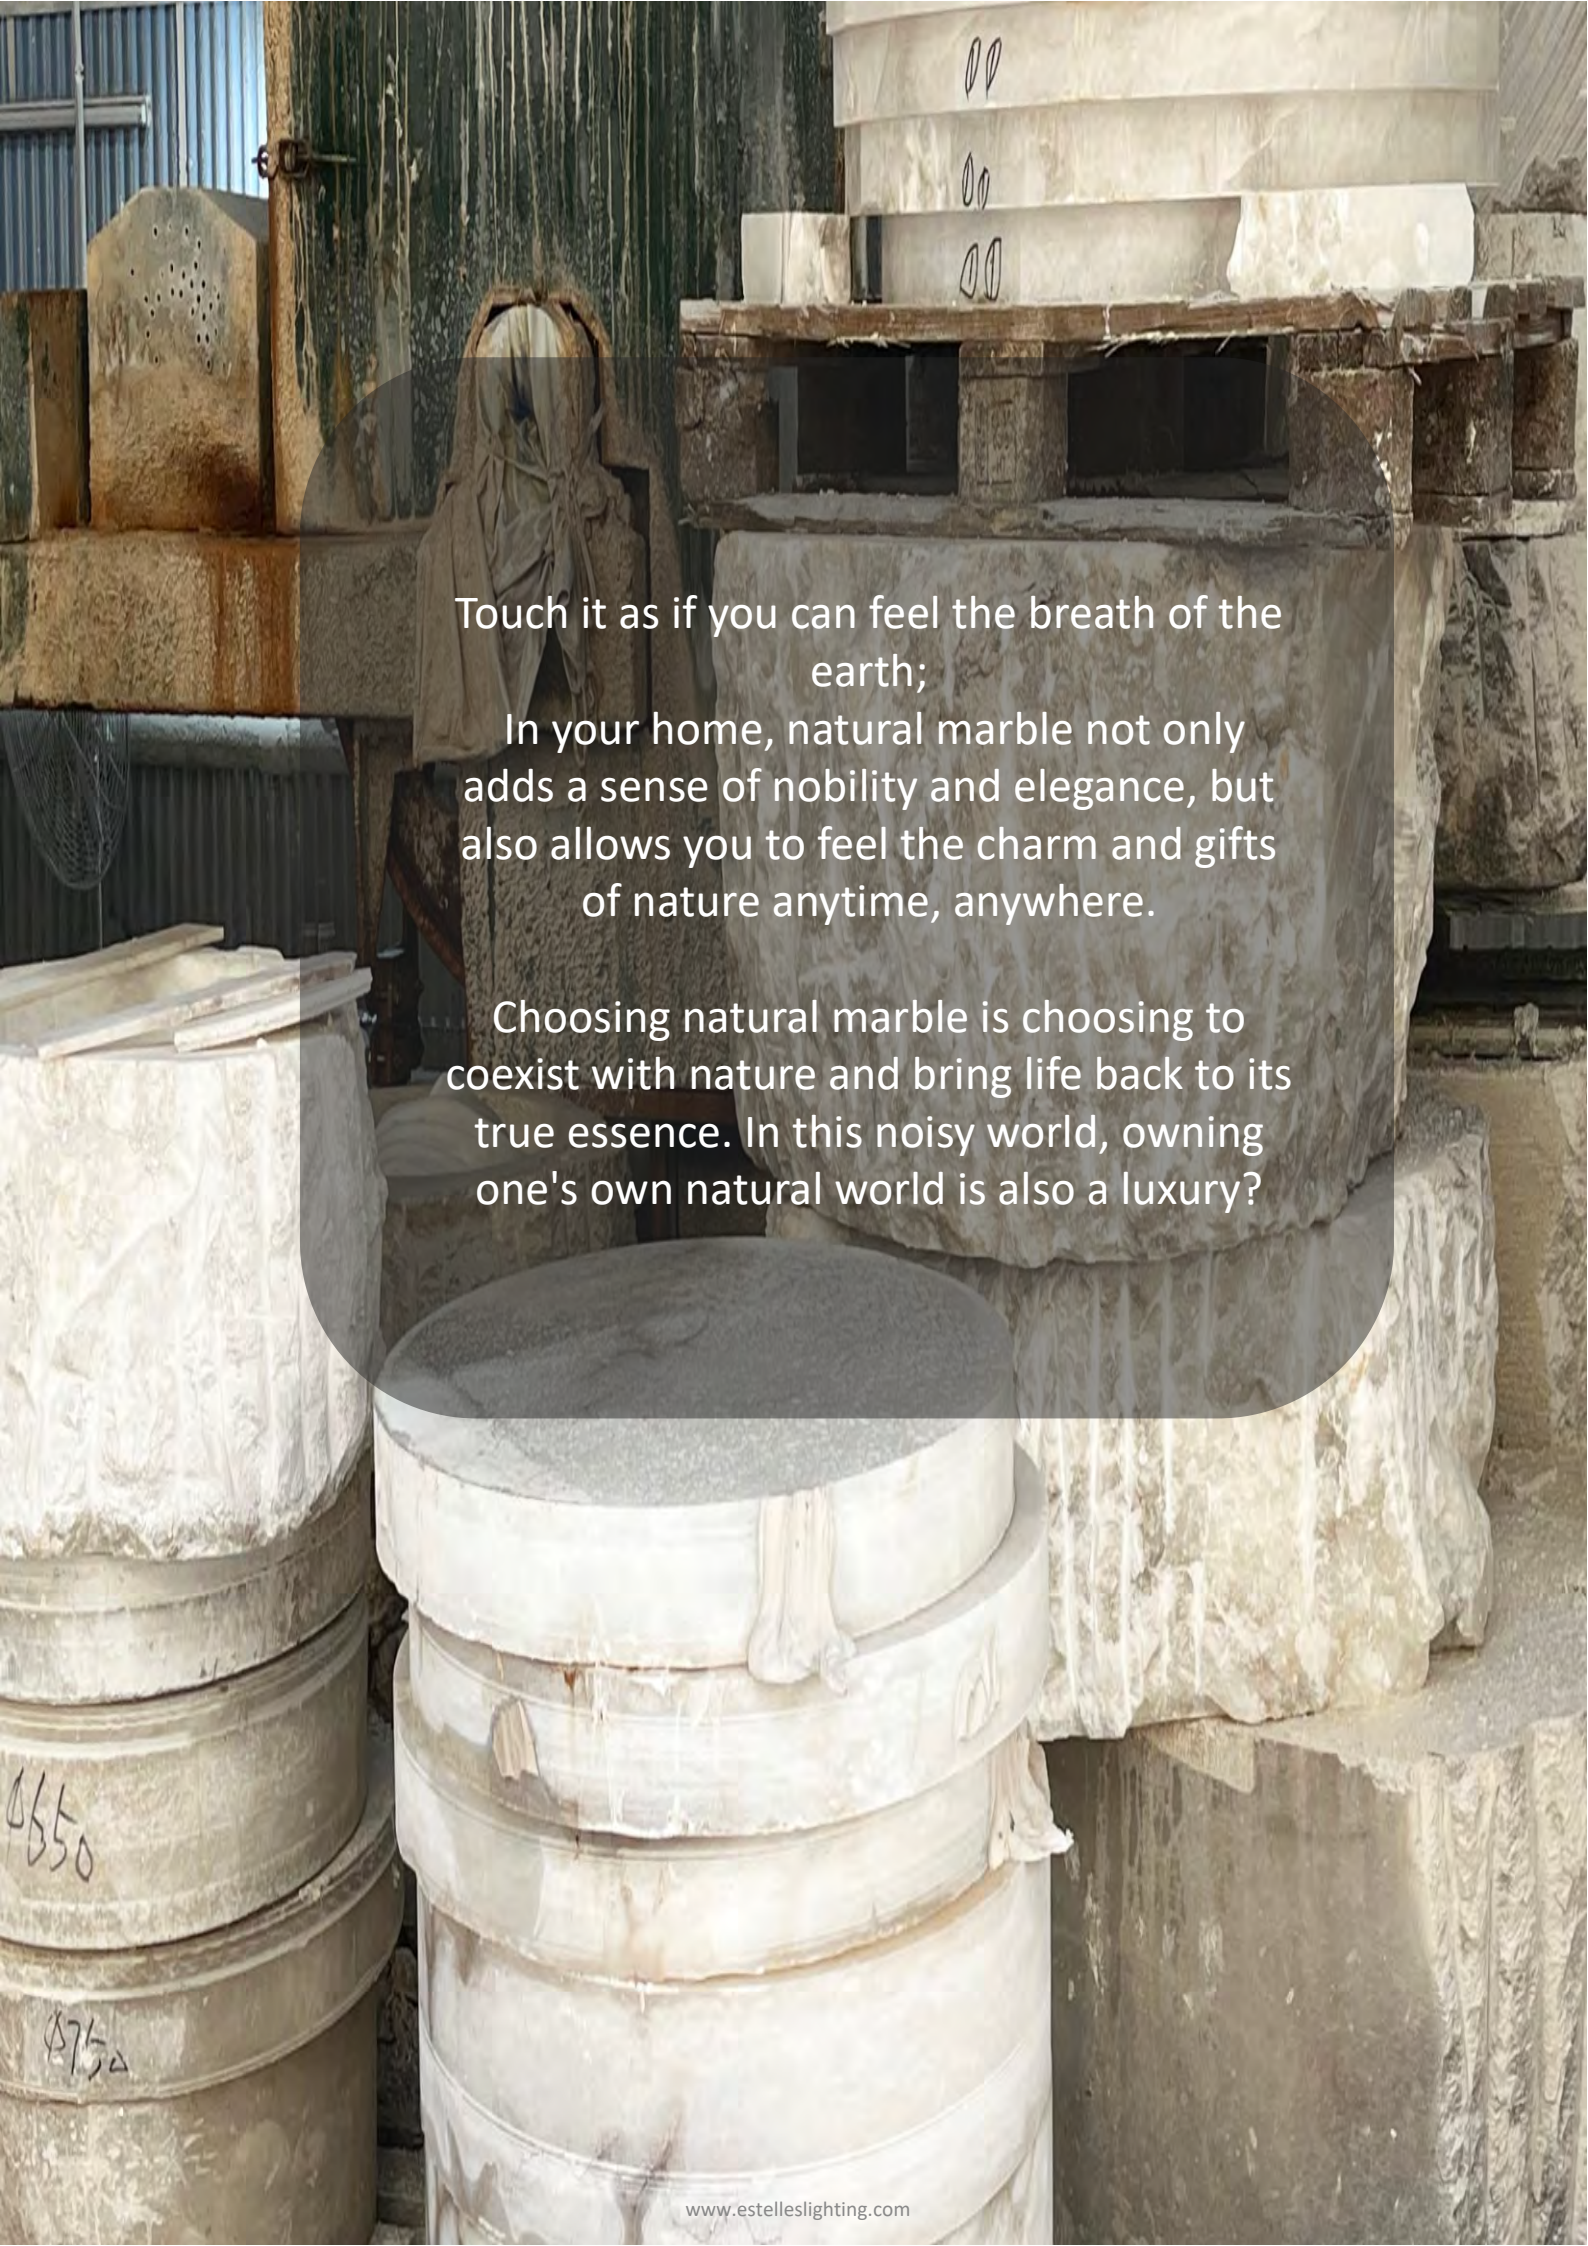

We have been searching for that natural
tranquility and purity.

Natural marble, a masterpiece of nature,
brings an irreplaceable natural beauty to
your home space with its unique texture
and warm texture.

It is not just a stone, but a witness to
millions of years of geological changes.

Each piece of marble carries its own unique
story, whether it is the light and elegant
patterns like cloud colors, it is a unique
imprint bestowed by nature.

A photograph of a stone workshop or quarry. In the foreground, there are large, stacked blocks of light-colored natural marble. Some blocks have handwritten numbers like '0650' and '0750'. In the background, there are more stone blocks, some with numbers like '00' and '01', and a wooden structure. A semi-transparent dark grey oval shape is overlaid on the center of the image, containing white text.

Touch it as if you can feel the breath of the
earth;

In your home, natural marble not only
adds a sense of nobility and elegance, but
also allows you to feel the charm and gifts
of nature anytime, anywhere.

Choosing natural marble is choosing to
coexist with nature and bring life back to its
true essence. In this noisy world, owning
one's own natural world is also a luxury?

Alabaster are gifts from nature, each with a unique texture.

We have divided their textures into the following 5 different categories, such as : Lighting pattern/ Ink wash pattern/ Snowflake pattern/ No texture/Ice crack

Products produced in different batches may have inconsistent textures. If you have special requirements for texture, you can communicate with us in advance about the texture standards
